

# Welcome to your system supplier for every aspect of power transmission

**RINGFEDER POWER TRANSMISSION produces mechanical components and provides superb engineering solutions for the connection of machine-drives. Furthermore we offer recognized technical solutions in the field of Damping Technology.**

With a long tradition of excellence in shock absorbing and key-less connection technologies, RINGFEDER POWER TRANSMISSION is the market leader and specialist in drive and damping technology. As a company with global presence, our goal is to support customers worldwide with quality products, superior technical know-how and quick delivery service. Excellent performance records of our products and solutions has made RINGFEDER POWER TRANSMISSION a safe buy for everyone who knows us. RINGFEDER POWER TRANSMISSION is also known for honesty, fair customer treatment and an unwavering responsibility for our products, solutions and recommendations.

After more than 90 years in the market, RINGFEDER POWER TRANSMISSION has earned a reputation for reliability and performance excellence.

RINGFEDER POWER TRANSMISSION with its existing German premium brands RINGFEDER, TSCHAN and GERWAH is one of the prime addresses worldwide in the drive and damping technology for mechanical engineering. The brand RINGFEDER is worldwide leading in the product areas locking devices and damping technology. The brands TSCHAN and GERWAH stand for specialization in non-shiftable, elastic, highly-elastic and torsionally stiff shaft couplings, as well as servo insert, metal bellows, safety and torsionally stiff shaft couplings.

RINGFEDER POWER TRANSMISSION is active in a number of niches with the whole world as its market. Operations are conducted from wholly owned companies in Germany, the Czech Republic, the USA, India and China. The number of customers is about 4,000 and they are reached either via the division's own salesmen or a network of agents and distributors.
